

A Specialized Course in Metallic's for Today's Interior Design Styles

A Platinum Training Center Exclusive

A Symphony in Metallics N° 28

An "Environmentally Friendly" Decorative Painting Curriculum designed to help you stand out and win Decorative Painting Contracts in today's Green Build and Remodel Market.

3 Intense Days of Training

4 Unique Products with 4 Amazing Stories

Lots of Great Finishes and Techniques

Low to No VOC's

"Green" and many other exciting Colors!

Poise your Decorative Painting Business for the changes in environmental regulations.

In this class you will learn...

- why being environmentally conscious is important to your business.
- Decorative Finishing in degrees of Green.
- how to offer Decorative Finishes for improved indoor Environmental Air Quality, Moisture Management, and Thermal Insulation.
- to develop an Environmentally Friendly Portfolio and *profit* from Green Building and Remodeling.
- how Shizen finishes have positive impacts on the environment.
- how to educate your customers, designers, and builders on Green Decorative Finishing Products and Techniques.

*Create your masterpiece
the way Nature intended!*
